Code Snippet- Glowing Border

```css
.project-box.shooting-border::before {
  content: "";
  position: absolute;
  top: -4px; left: -4px; right: -4px; bottom: -4px;
  border-radius: 24px;
  padding: 2px;

  background: conic-gradient(
    from 180deg at 50% 50%,
    ▪#decdea, ▪#7c4d9e, ▪#e4dbeb, ▪#7c4d9e, ▪#dfceeb
  );
  background-size: 200% 200%;
  animation: animateBorder 3s linear infinite;
  z-index: -1;

  /* glowing ring effect */
  -webkit-mask: linear-gradient(▪#fff 0 0) content-box, linear-gradient(▪#fff 0 0);
  -webkit-mask-composite: xor;
  mask-composite: exclude;
}
```

```css
@keyframes animateBorder {
  0% {
    background-position: 0% 50%;
  }
  100% {
    background-position: 200% 50%;
  }
}
```

Code Snippet - GSAP for about me

```
gsap.from(".about-img", {
x: -100,
opacity: 0,
duration: 1.2,
ease: "power2.out",
scrollTrigger: {
  trigger: ".about-img",
  start: "top 80%"
}
});
```

```
gsap.from(".about-text", {
  x: 100,
  opacity: 0,
  duration: 1.2,
  ease: "power2.out",
  scrollTrigger: {
    trigger: ".about-text",
    start: "top 80%"
  }
});
```

Interesting concepts and Hardships

Key improvements

- Make the cursor and stars work for all pages.
- Bootstrap Carousel (Slide Show) for work section.
- More javascript.
- Organize all my codes.
